Our Pals testimonials:

"Being part of the My English Pal program has been an amazing experience. I have been able to help many students through my knowledge. At the end of each session, each "thank you" you get, makes all the effort worth it. I'm glad I got into the program last year because I get to put my English in practice on a daily basis while I help others"

María Paula Fonseca

"Being a monitor for My English Pal have been a great experience, I've learned a lot from the other students. Every time I prepare an activity for the session, I remember a lot of rules and I even learn new rules. I've also been able to see other students improve their English from session to session and it's so satisfying seeing the impact that this program has on the students. Besides it's great to have a session like Chit Chat or UR Shaking 'cause it's a great opportunity to talk about different subjects and think for a moment of something different of classes and midterms, it's like a break in the middle of the week where we have fun, share our knowledge and practice our English."

Valentina Delgado

"Being an English Pal has been one of the most satisfying and sometimes challenging tasks in my career. I have always enjoyed being a mentor and assistant in regular classes but being an English monitor has allowed me to challenge my teaching skills by having to use another language and seeing up close response by spending time with students one on one. It has helped me learn, grow, and rediscover my passion for teaching while having fun doing it.
